A DIFFERENT KIND OF EXHIBIT COMPANY

FOR A DIFFERENT KIND OF EXHIBIT

WELCOME TO SHOWBOX

SOME COMPANIES BUILD DISPLAYS...
SHOWBOX DELIVERS BRAND EXPERIENCES.

Many companies offer fabrication of trade show exhibit booths and conference displays.

The ShowBox team is made up of seasoned design, marketing, and service professionals who deliver a higher level of exhibiting experience. Experiences that elevate and showcase your brand.

At ShowBox, the difference starts with listening. Listening to fully understand your unique brand story. Then we create an innovative, compelling concept that reflects your specific event objectives. From static trade show displays to fully custom, over sized exhibit booths featuring multimedia graphics, ShowBox brings your company's message to the masses.

The ShowBox team takes great pride in delivering the most compelling product and service solution in the industry. When it comes to service, no one does it better. And it shows in our client displays and on the exhibit floor.

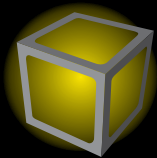

BRANDING SPECIALISTS

ShowBox is a full-service trade show exhibit booth and display design, fabrication, and logistics company based in Houston. ShowBox, formerly Twiin Media, is a subsidiary of BrightBox, a multi-media brand marketing and strategic communications firm, which acquired the company in 2009 to provide companies in a wide variety of industries with a better trade show exhibit booth and event display solution.

STRATEGIC AND AWARD-WINNING DESIGNS

Yes, we have won awards for our graphic design, 3d animation and motion graphics, videos, copy writing, and branding programs. But we also recognize that award-winning design must be based in strategy and functionality and we design branded trade show exhibit booths and event displays with those requirements in mind.

ShowBox offers a virtual exhibit booth design process, so you can see how your display will look before making final fabrication decisions. We construct client booths using the newest generation of exhibit materials, giving us the flexibility to achieve whatever look and feel works best for your brand.

SERVICE MAKES THE DIFFERENCE

Show services and logistics can be stressful. ShowBox can alleviate that burden and provide complete logistics support for you. All you have to do is show up. Our experienced on-site supervisors will have your booth environment ready for your sales team and handle breakdown and return delivery after the show.

Installation and dismantle services are handled by trained professionals focused on delivering for you. From effective electrical distribution to lighting enhancement packages to engaging interactive presentations, the ShowBox team has the technical expertise required to deliver even the most comprehensive solutions.

ShowBox also provides expert consultation to help clients maximize existing assets, evaluate the benefits and liabilities of new purchases, and advise on the purchase and rental of hybrid programs.
